Introduction

Thank you for using Macsome iTunes Converter for Mac!

<u>Macsome iTunes Converter for Mac</u> is specially designed for Mac users to convert Apple Music files, audiobooks, iTunes music or other downloaded M4P music, to MP3, AAC, FLAC, WAV, AIFF, or ALAC format, and the output audio is the same as the original audio files, lossless quality is kept. It will help you transfer Apple Music files and iTunes music to your iPhone, iPad, iPod, PS5, common MP3 players, and other devices offline.

Key Features

- Remove DRM from Apple Music songs, audiobooks and M4P music;
- Convert Apple Music, audiobooks to MP3, AAC, WAV, AIFF, FLAC, and ALAC;
- > Faster conversion speed with 100% original audio quality preserved;
- Keep all ID tags, such as artist, album, year, track number, genre;
- > Life-long free updates and free technical support.

System Requirements

- MacOS 10.15, 11, 12, 13, macOS 14 Sonoma, and macOS 15 Sequoia.
- > iTunes 10 or later installed (Latest version of Music is recommended)
- > At least 512M physical RAM
- > 1G Hz Intel processor or above
- > 1024*768 resolution display or higher

Purchase & Registration

- Purchase Macsome iTunes Converter for Mac
- <u>Register Macsome iTunes Converter for Mac</u>

Purchase Macsome iTunes Converter for Mac

Quick Link: To buy a license key for Macsome iTunes Converter for Mac, click Here.

1. Why should I buy Macsome iTunes Converter for Mac?

Put simply, Macsome iTunes Converter for Mac is a shareware, and the trial version has the limitation that you can only convert the first minute of each audio. After you purchase our product, you will be provided with your Email and Registration Code which will unlock the trial version limitation.

- 2. What Benefits do we have after Registration?
- Unlimited use without any time and function restrictions.
- FREE upgrades to the updated versions of the same product released.

Register Macsome iTunes Converter for Mac

Step 1: Run Macsome iTunes Converter on Mac. First you click **Register** option on the left to register your program.

Import Music Files

Macsome iTunes Music Converter offers two download modes: from the Apple Music App or from the Apple Music Web Player.

Differences between 2 Download Modes:

Record music from Apple Music App: 1X speed; keep original quality; convert Apple Music, iTunes purchased tracks, and more.

Record music from Apple Music Web Player: up to 10X speed; convert Apple Music only.

Record from Web: Use your Apple Music account to log in to the web player. Open a playlist, and press the "**Click to add**" button, then you will see a pop-up window which will show you all the tracks of this playlist.

Note: If you choose the **"Record from Web"**, you are able to download Apple Music songs at up to **10X** faster speed. You'll need to log into your Apple Music account before conversion, but don't worry, it will not take any other information from your account other than the songs.

Delete Music Files

Select the files you want to delete at first. Then Click the 🔀 button or **Delete All** button to delete.

Choose Output Format

Click the **Settings** button at the lower left corner to set the **Output Format** (MP3, AAC, WAV, FLAC, AIFF, and ALAC), **Conversion Mode** (Intelligent Mode, iTunes Record, Web Download, YouTube Download), **and Output Path** for your needs.

macsome.inc @gmail.com	Tools			

Customize Output Path

Click **Settings** button at the lower left corner, then you can customize the output directory in the pop-up window.

Tips:

- 1. If you don't change the output path, the converted files will be saved in Macsome default folder: Users/User Name/Documents/iTunes Converter
- 2. You can click the ... button to show the output path.

Convert Apple Music

After finish customization, just click the **Convert** button to start the converting.
