1. Why should I buy Windows version of Macsome iTunes Converter?

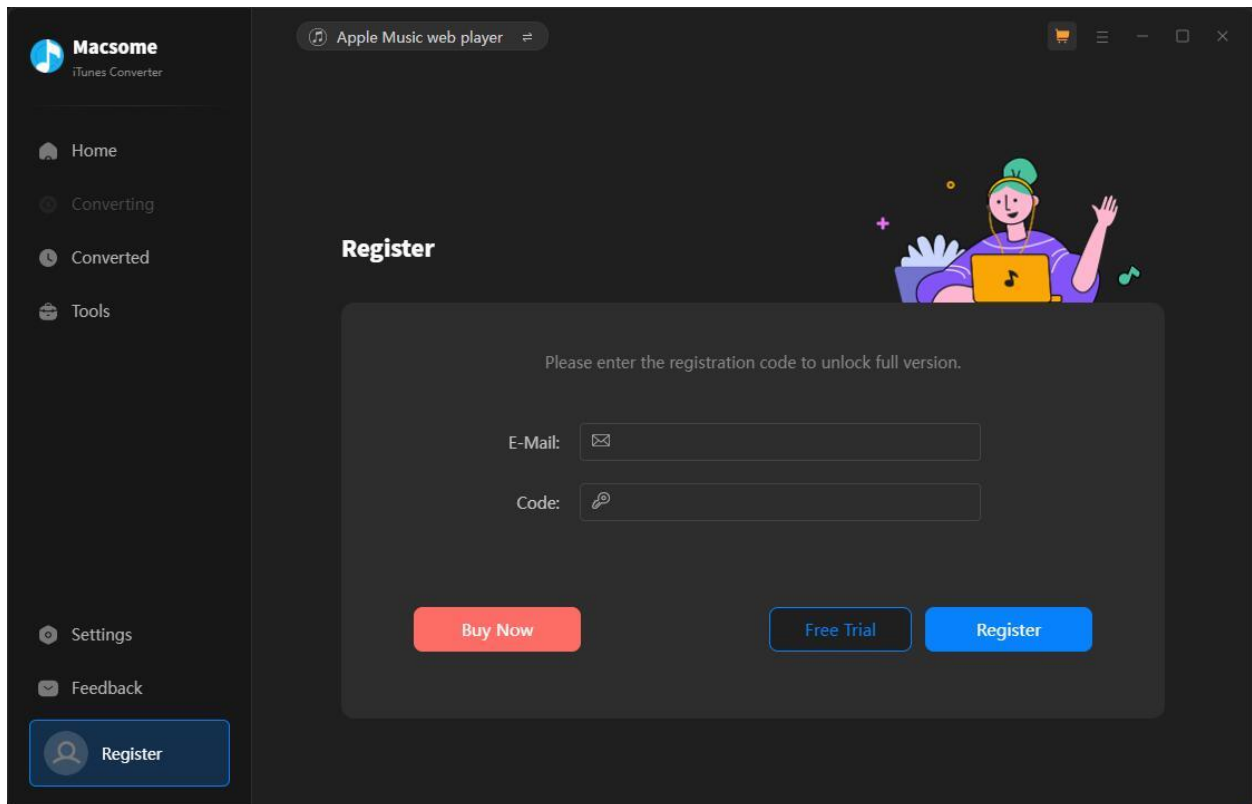

Macsome iTunes Converter for Windows is a shareware, and the trial version has the limitation that you can only convert first 1 minute of each audio track. After you purchase our product, you will be provided with your Registration Email and Registration key which will unlock the trial version limitation.

2. What Benefits do we have after Registration?

- Unlimited use without any function restrictions.
- Lifetime FREE upgrades to the latest versions of the same product.
- Lifetime FREE technical support.

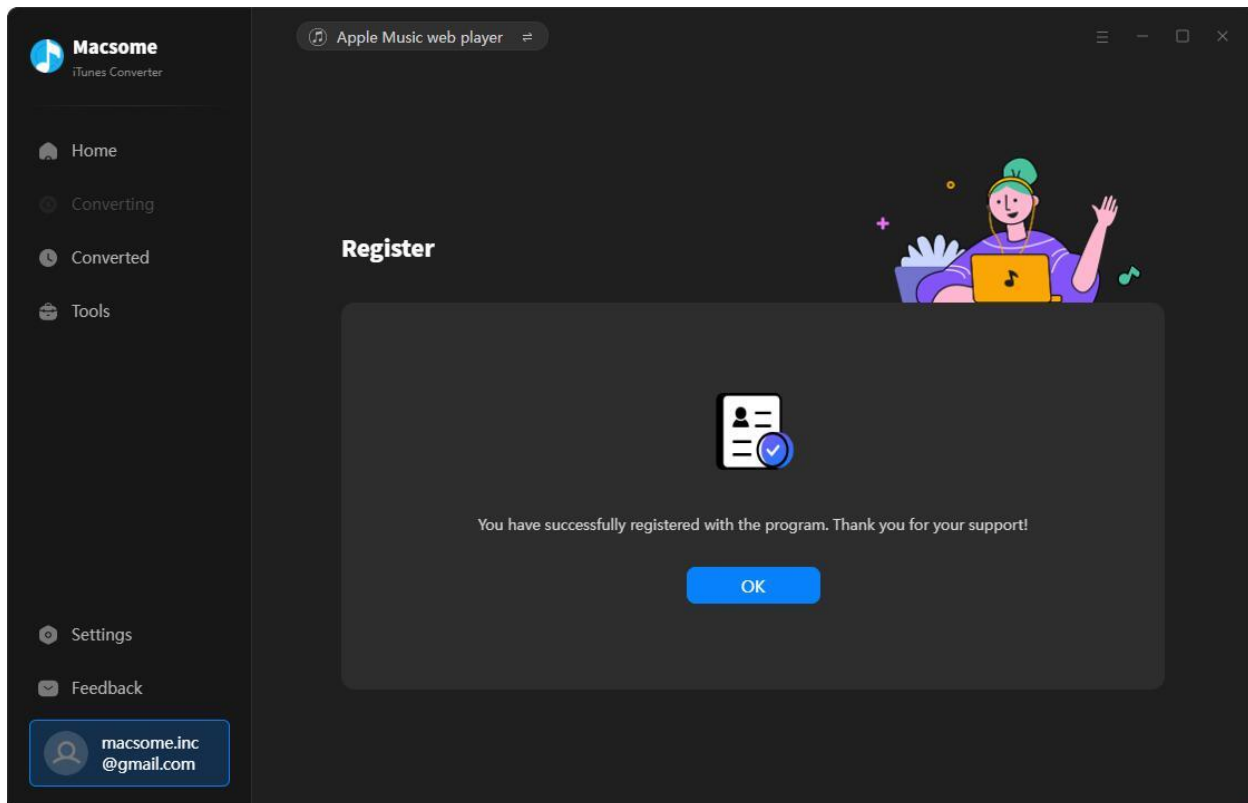

Register Macsome iTunes Converter for Windows

Step 1. Run Macsome iTunes Converter on PC. First you should click the **Register** option on the lower left, or click Menu button  on the upper right, and then select **Register** option to register your program.

Step 2. Please fill the input blanks with Registration Email or Register Name and Registration key. You may use Ctrl+C to copy and Ctrl+V to paste in the window. Then please click **Register** button.

Step 3. After finishing the Registration, the limitation of the trail version will be removed.

Note: The registration info is case sensitive. And, please do not add blank at the beginning or the end of the word. Make sure both the Email address and key code are the same as what we provided in the confirmation email after purchasing the program.

- Edit ID3 Tags

Import Music Files

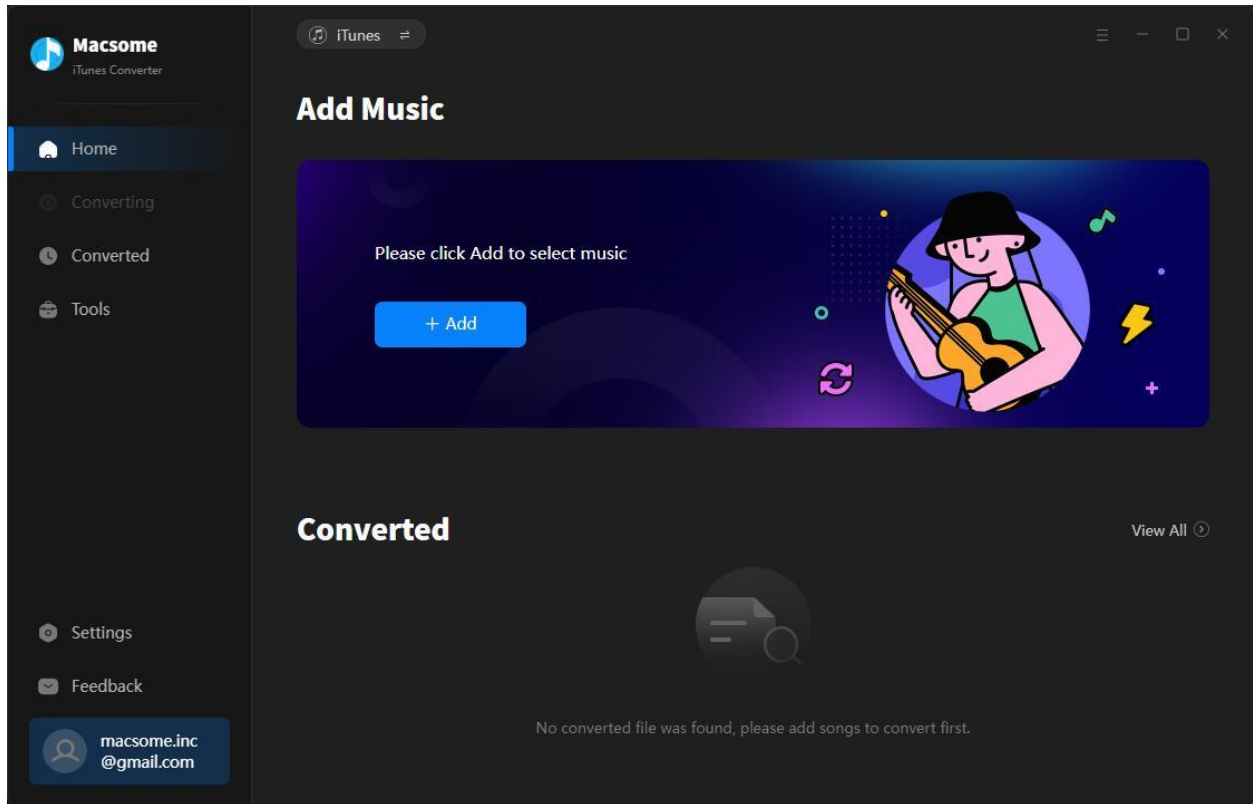

You can choose to convert Apple Music from the Apple Music app or Apple Music web player.

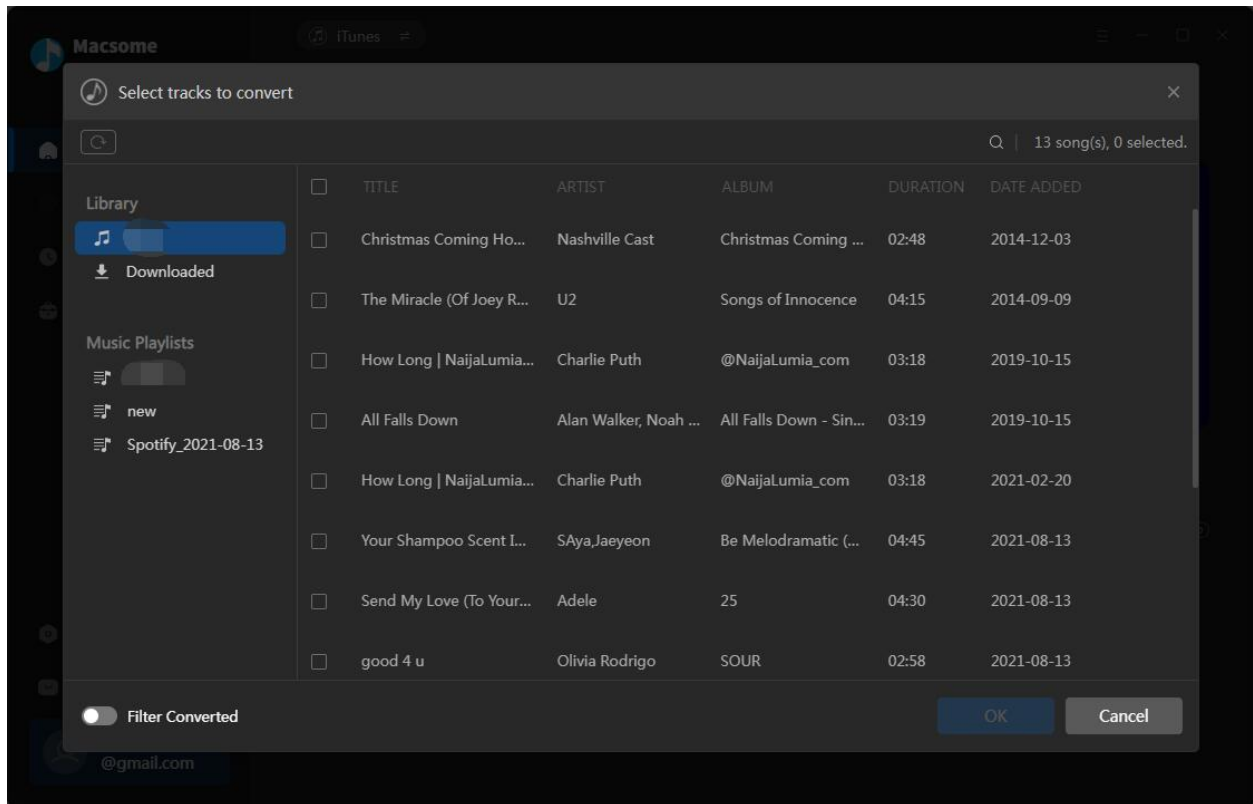

From iTunes App.

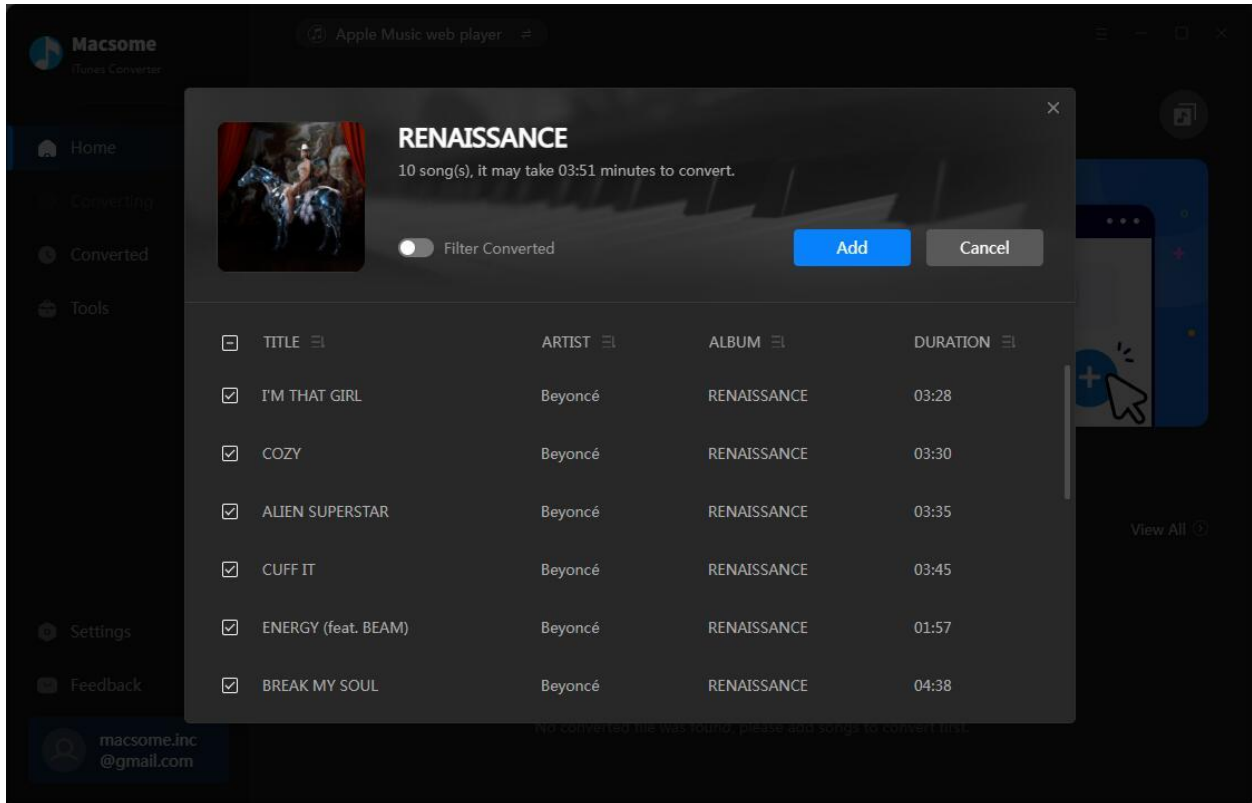

Click the "+ Add" button, then you will see a pop-up window which will show you all the iTunes folders. You can add Apple Music files, audiobooks, and M4P audio as you want.

You can add Apple Music files, audiobooks, and M4P audio as you want. Click "OK" to confirm.

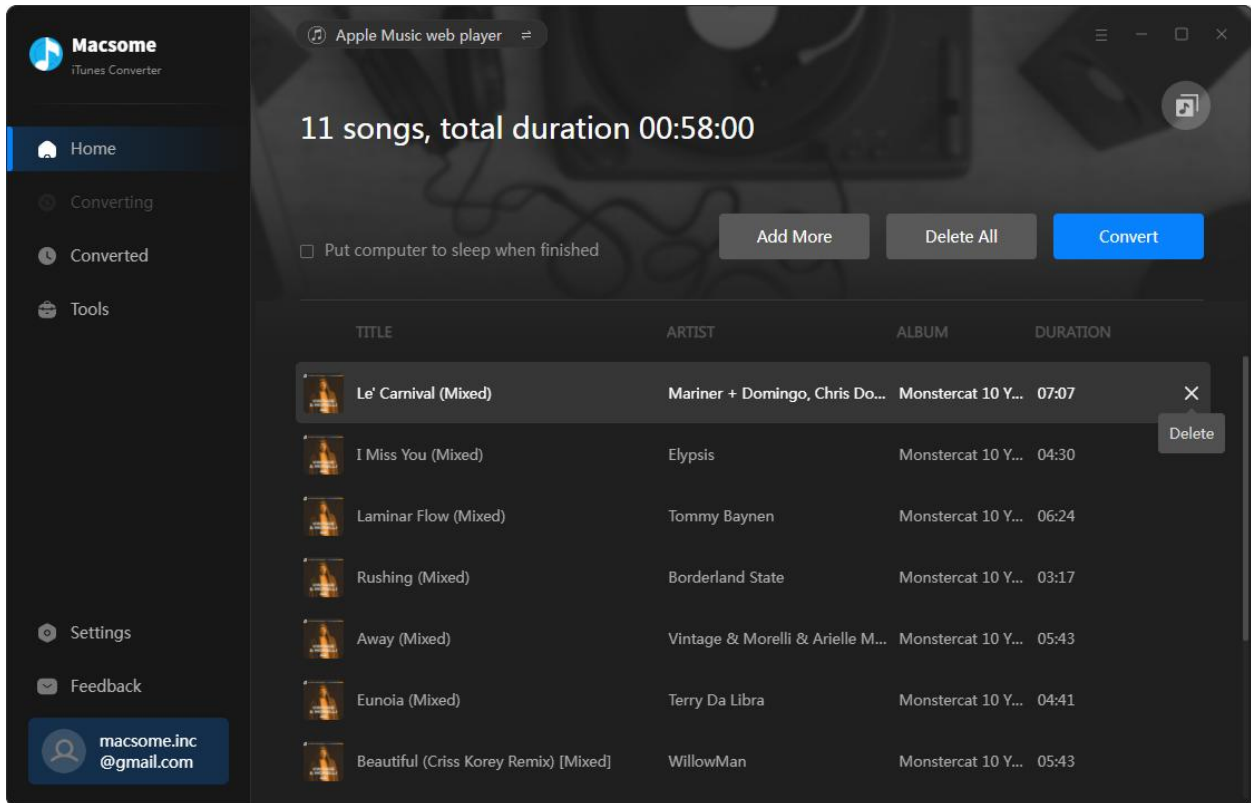

From Apple Music web player. Go to the Apple Music web player, click the "Click to add" button, then you will see a pop-up window. You can select the songs from Apple Music you want to download.

Delete Music Files

Select the files you want to delete at first. Then Click the **Delete All** button to delete.

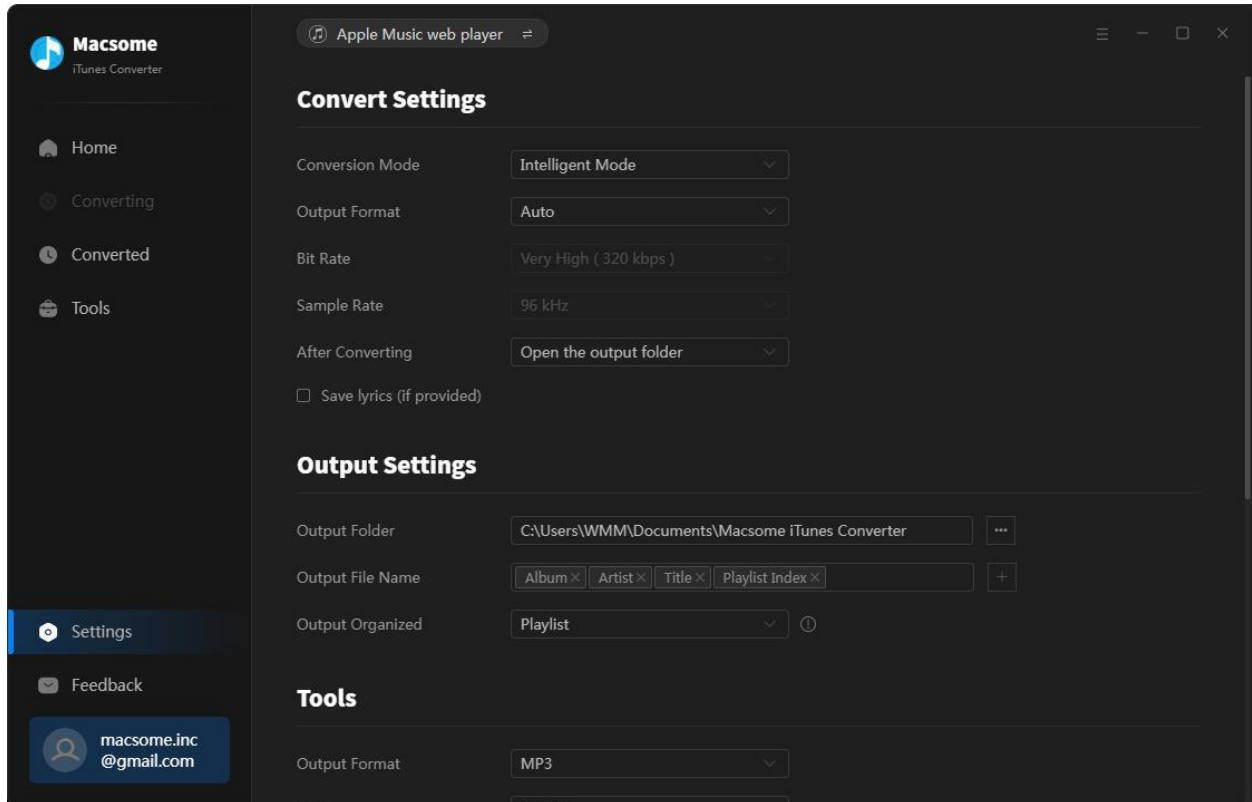

Customize Output Settings

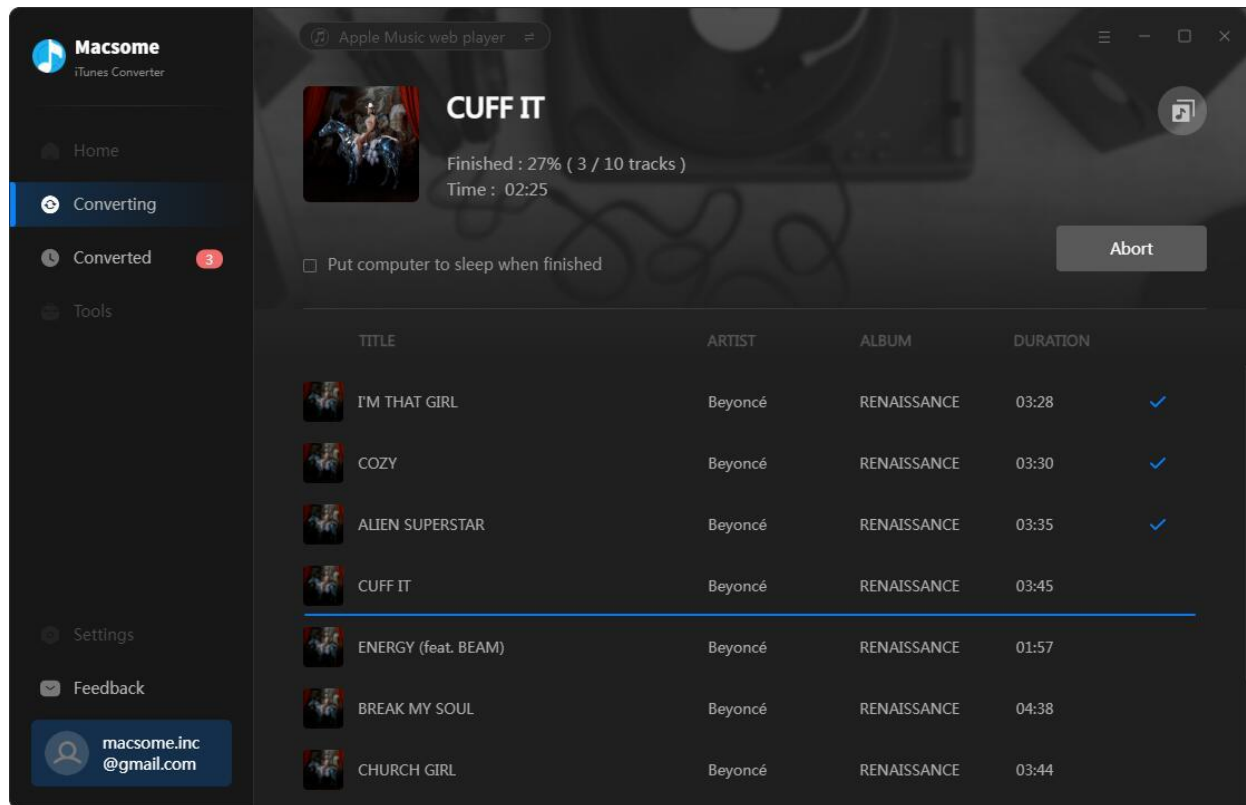

Click the  button at the lower left corner to set the Output Format, Conversion Mode, Output Path.

- ❖ Conversion Mode: Intelligent Mode, iTunes Record, Web Download, YouTube Download
- ❖ Output Format: MP3, AAC, FLAC, WAV, AIFF, ALAC
- ❖ Bit Rate: 128kbps, 192kbps, 256kbps, 320kbps
- ❖ Sample Rate: 44.1kHz, 48kHz, 96kHz, 192kHz
- ❖ Output Folder: You can choose to change it or not
- ❖ Output File Name: {Track Number}, {Title}, {Artist}, {Album}, {Playlist Index},{Year}
- ❖ Output Organized: None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Album, Playlist/Artist

Convert Music Files

After finish customization, just click the **Convert** button to start the converting.

Note: Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the audio and the original file can be played on iTunes.

Warning: Before the status show converting progress, please don't do anything with iTunes during converting, otherwise the conversion may fail by occurring an error.

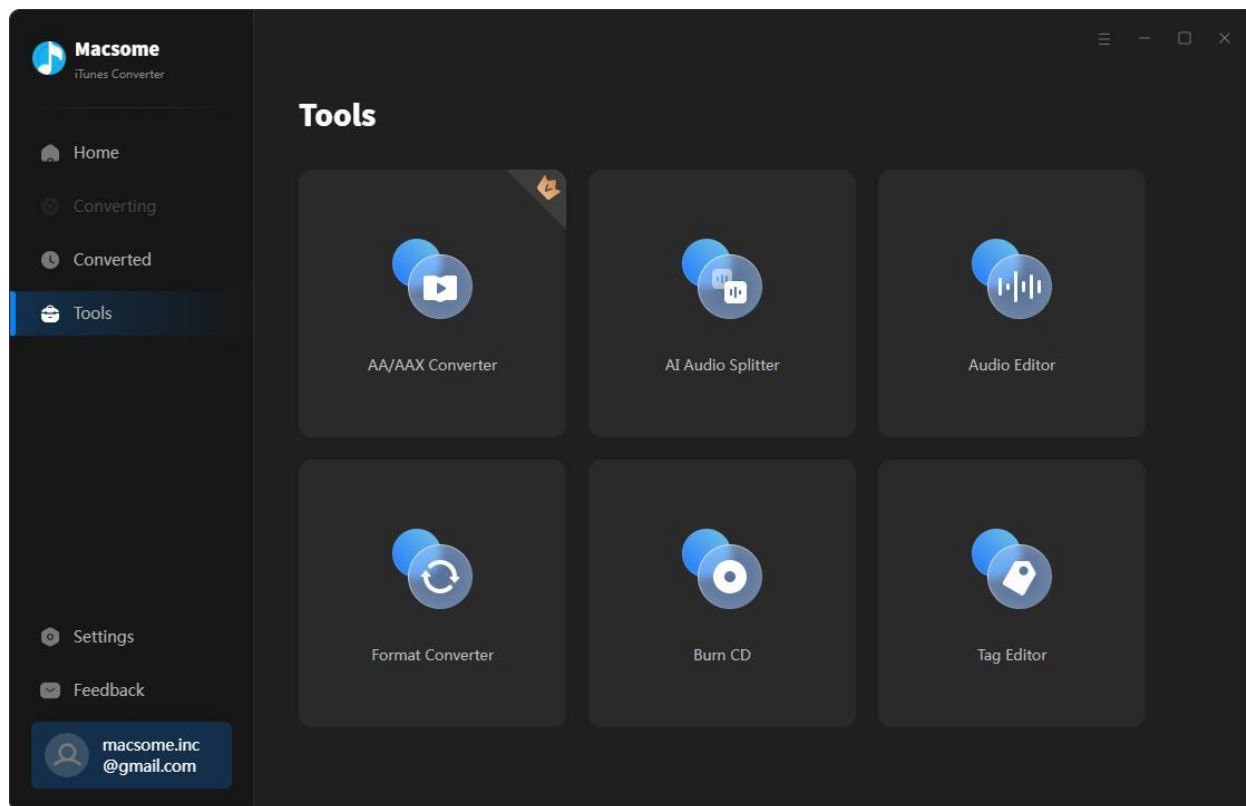

Check Conversion History

When the conversion is completed, the history records will be saved automatically. Click the **‘Converted’** button on the right side to show up the records.

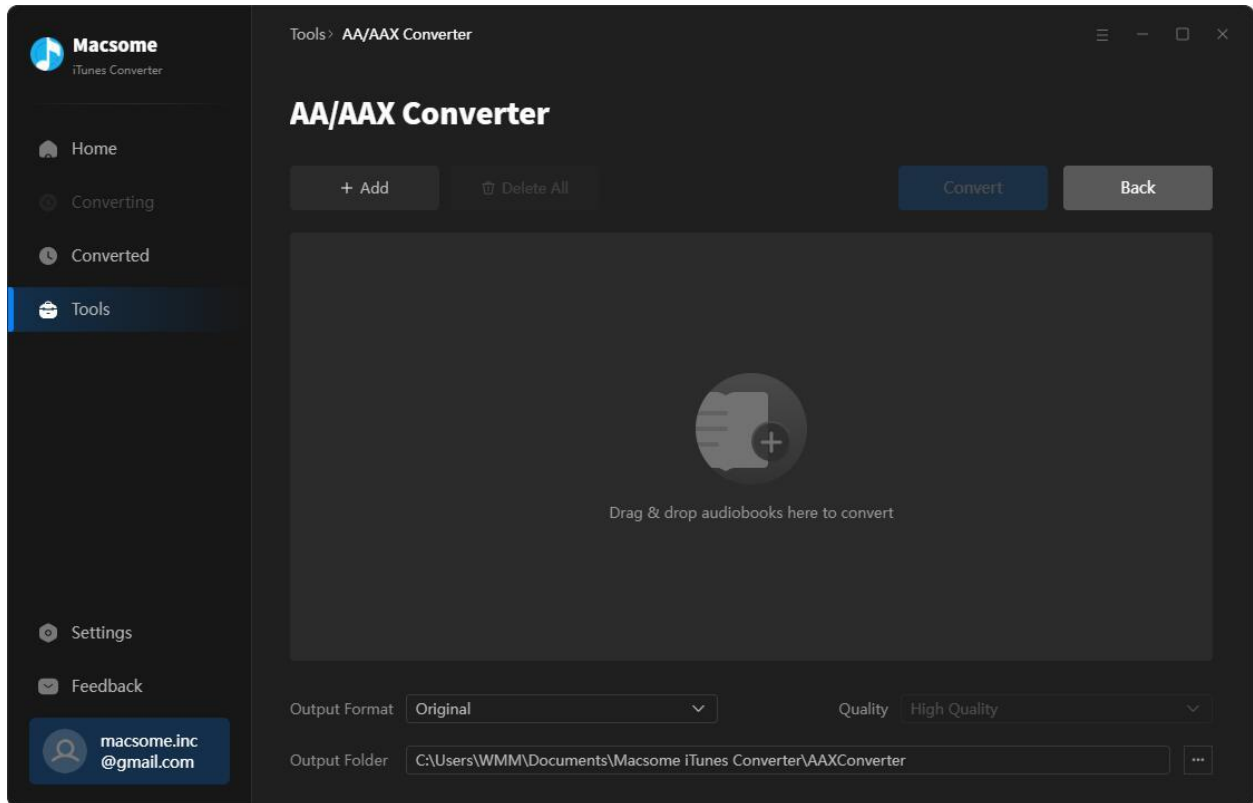

The screenshot shows the Macsome iTunes Converter interface. The left sidebar contains navigation options: Home, Converting, **Converted** (highlighted), Tools, Settings, and Feedback. The main area displays a list of converted songs under the heading 'Converted'. The list includes columns for Title, Artist, Album, and Duration. A tooltip 'Show in Windows Explorer' is visible over the first row.

TITLE	ARTIST	ALBUM	DURATION
MOVE (feat. Grace Jones & T...	Beyoncé	RENAISSANCE	03:23
VIRGO'S GROOVE	Beyoncé	RENAISSANCE	06:09
PLASTIC OFF THE SOFA	Beyoncé	RENAISSANCE	04:14
CHURCH GIRL	Beyoncé	RENAISSANCE	03:44
BREAK MY SOUL	Beyoncé	RENAISSANCE	04:38
ENERGY (feat. BEAM)	Beyoncé	RENAISSANCE	01:57
CUFF IT	Beyoncé	RENAISSANCE	03:45
ALIEN SUPERSTAR	Beyoncé	RENAISSANCE	03:35

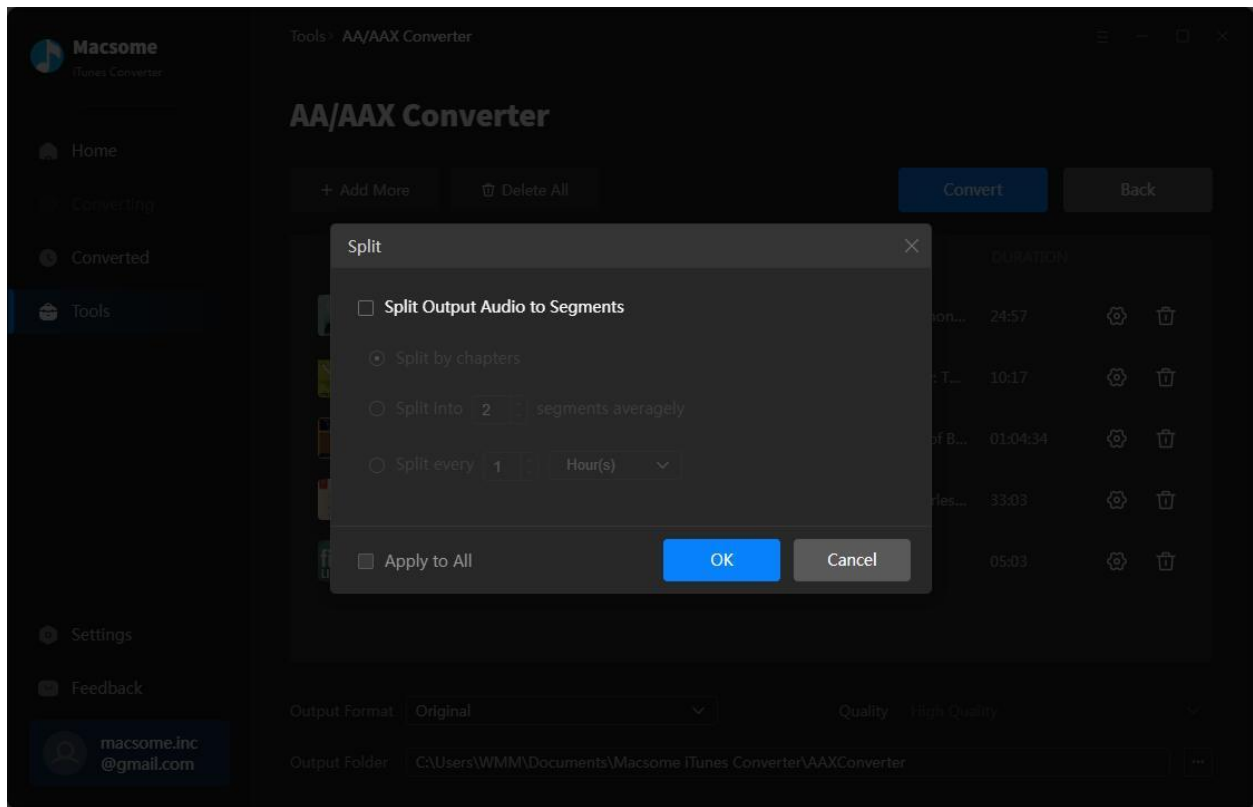

AA/AAX Converter

The **AA/AAX Converter** allows you to convert local Audible AA or AAX files to MP3, M4B, or M4A at up to 60x faster speed. Please note this tool is not available for the free trial version.

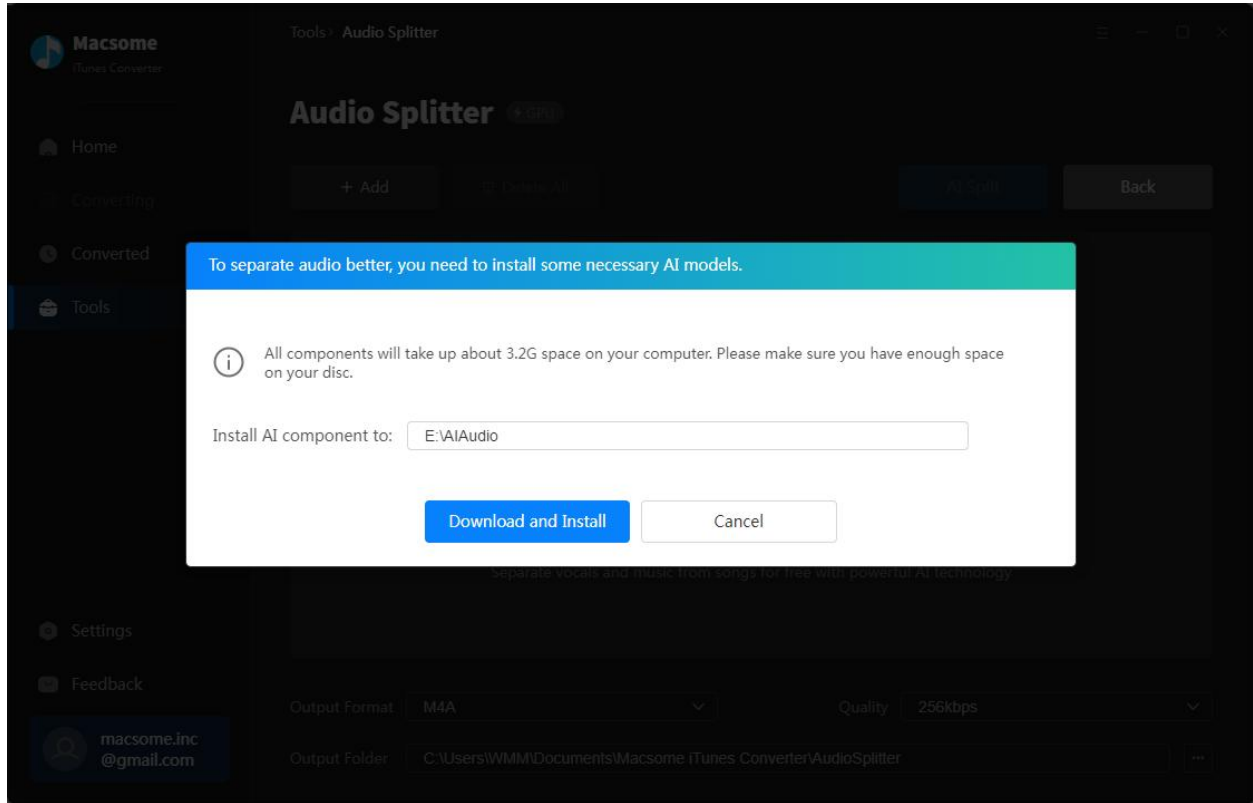

Drag AA or AAX files from the local folder to the main interface or click "+ Add" to add the audiobook files you downloaded locally, then select the output format, sound quality, and output folder. Finally, click "Convert" to begin the conversion process.

You can also split audio books by chapters, time segments, etc.

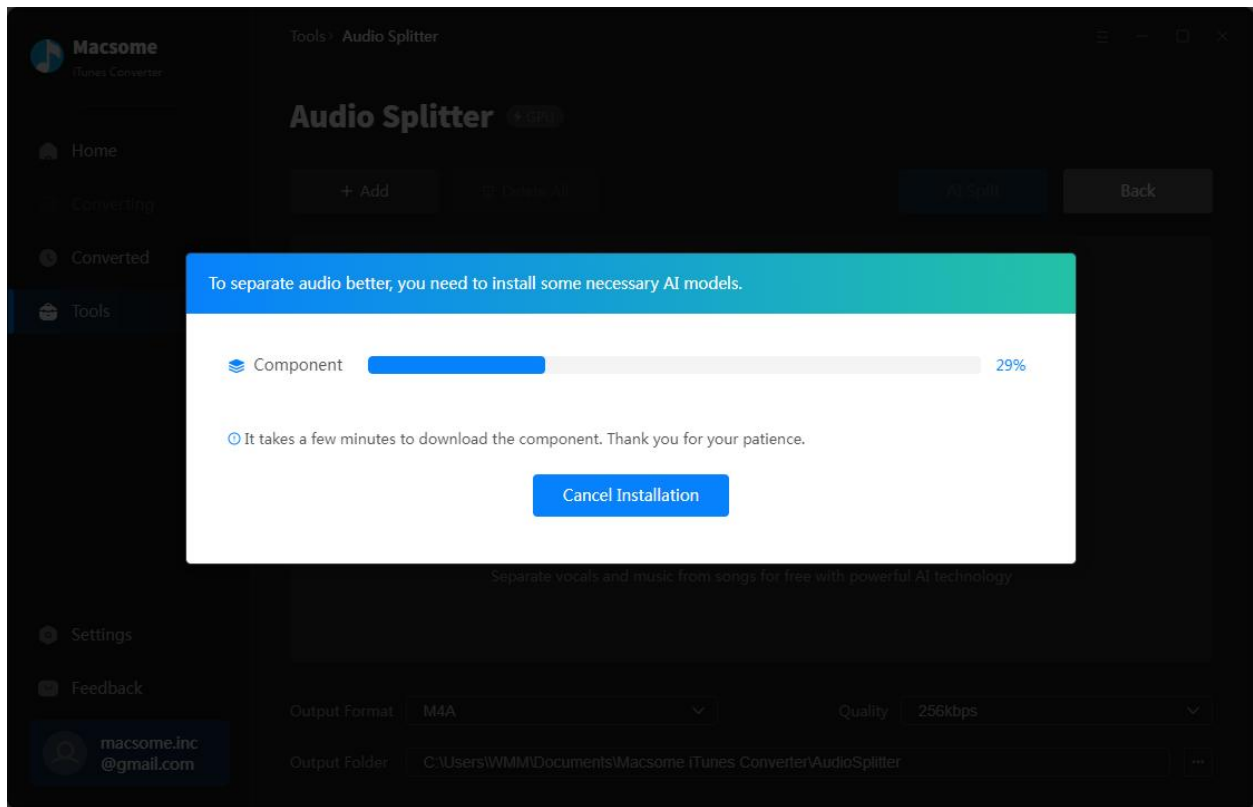

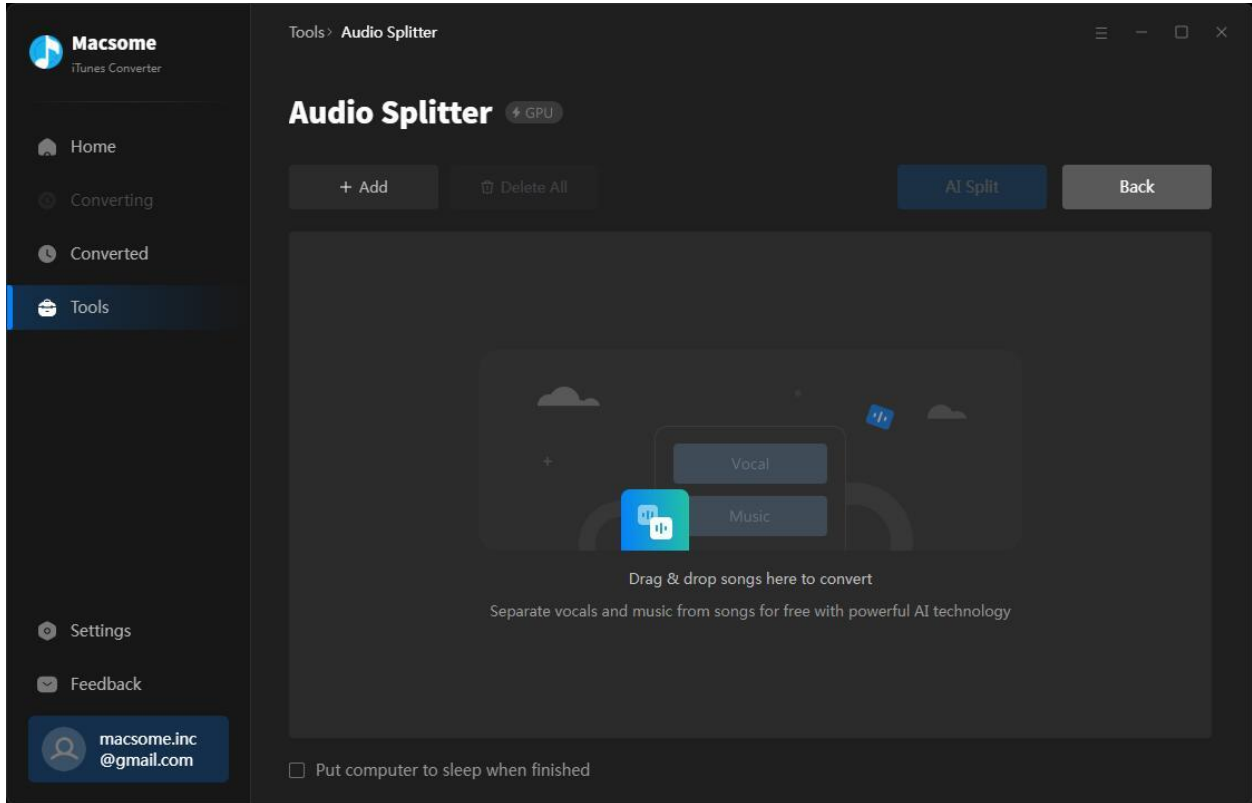

AI Audio Splitter

This tool can easily separate vocals, background, and other instruments in any song.

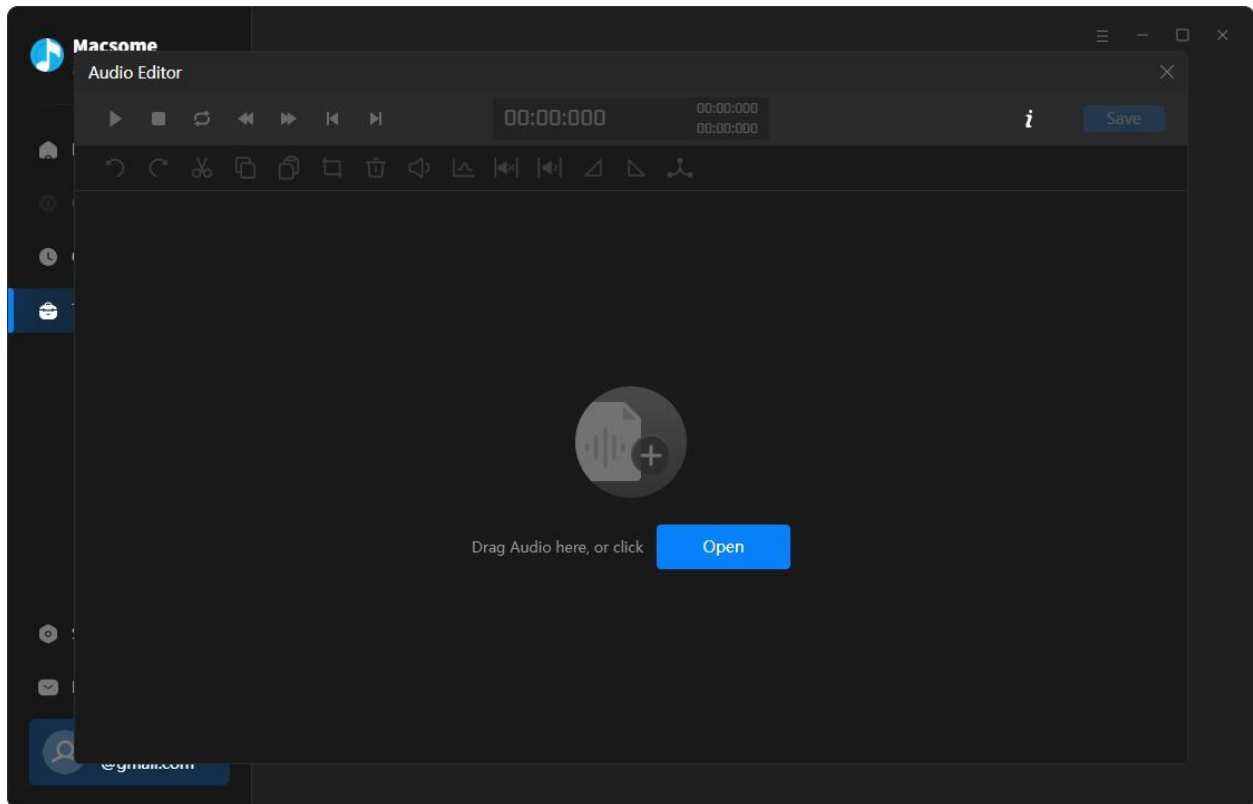

To separate audio better, you need to install some necessary AI models.

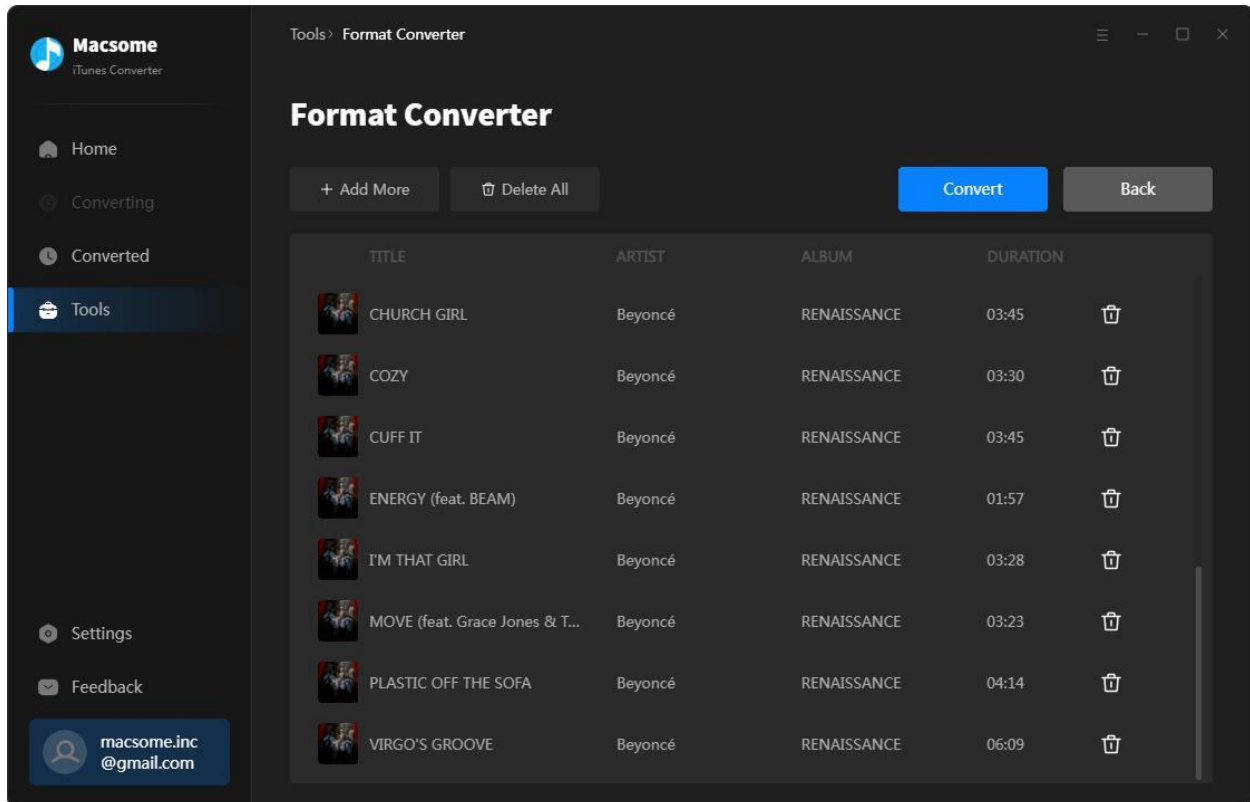

Audio Editor

The Audio Editor is a simple and powerful audio editing tool that lets you to edit audio files by cutting, pasting, and trimming audio clips. Typically, it also includes features for fading in and fading out audio clips, adjusting the volume. You can import audio files by dragging them directly from the local target folder or by clicking the "Open" button and selecting the desired file. Now you can edit the local audio files as you like.

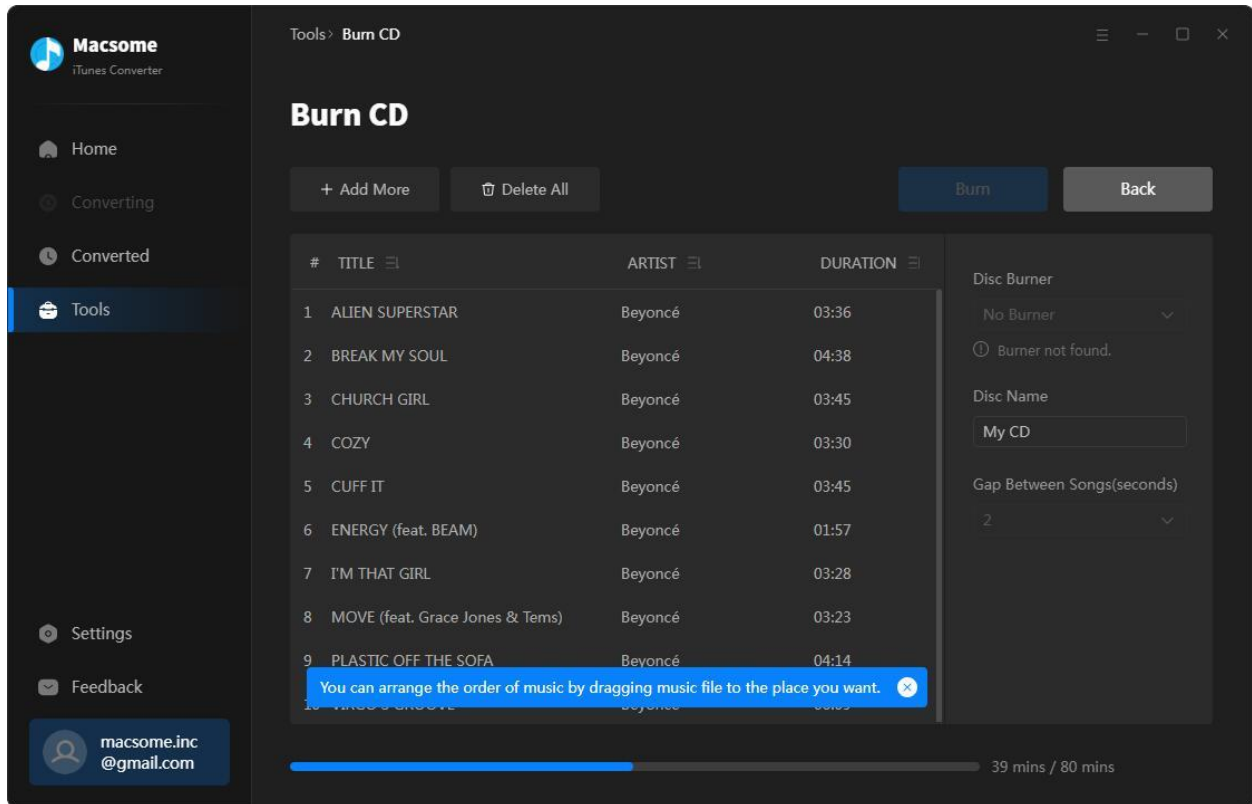

Format Converter

Apart from converting Apple Music, Macsome iTunes Converter also supports to convert the common music to MP3/FLAC/AAC/WAV/OGG/AIFF format. Simply open Macsome , click "Tools" >> "Format Converter", and then add the music from your computer to convert.

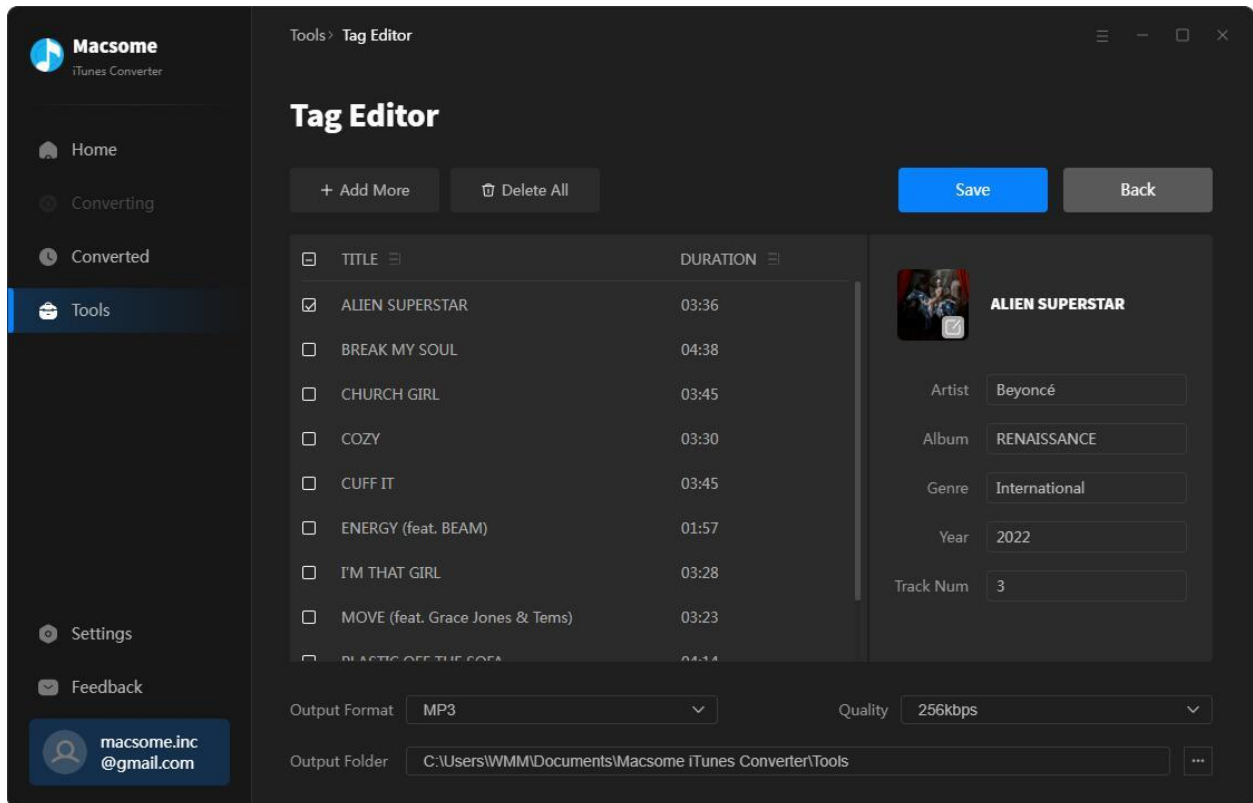

Burn Apple Music to CD

Macsome iTunes Converter also allows you to burn converted Apple Music or local music to CD directly. You can easily go to "Tools > Burn CD", then there will be a pop-up window prompting you to add music from your computer, insert CD, and rename your CD. Then all your songs will be burned into a CD after a few minutes.

Edit ID3 Tags

The program retains the original quality of Apple Music and keeps all ID3 tags after conversion. And you can also edit all the important and useful Meta information by clicking "Tools" >> "Edit Tag"
